Genetic Roulette (DVD): The Gamble of Our Lives

By Jeffrey M Smith

CHELSEA GREEN PUB CO, United Kingdom, 2014. DVD video. Book Condition: New. 180 x 138 mm. Language: English . Brand New Book. Never-before-seen evidence points to genetically engineered foods as a major contributor to rising disease rates in the U.S. population, especially among children.

Gastrointestinal disorders, allergies, inflammatory diseases, and infertility are just some of the problems identified in humans, pets, livestock, and lab animals that eat genetically modified soybeans and corn. Monsanto's strong-arm tactics, the FDA's fraudulent policies, and how the USDA ignores a growing health emergency are also laid bare. This sometimes shocking film may change your diet, help you protect your family, and accelerate the consumer tipping point against genetically modified organisms (GMOs). A film not to be missed. Also includes the bonus DVD Seeds of Freedom (28 min.) narrated by Jeremy Irons, and produced by the Gaia Foundation and African Biodiversity Network. This landmark film shows how the story of seeds at the hands of multinationals has become one of loss, control, dependence, and debt. Also: two talks by Jeffrey M. Smith and twelve public-service announcements.
