Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1921 Excerpt: .the urine in the second glass resembles that in the first, the inflammation has reached the posterior urethra, that part located within the body. If the urine is not clouded with pus but contains shreds of cast-off cells, it indicates that the disease has passed from the acute to the chronic stage. TREATMENT OF GOXORKUEA IX TnE MALE. Usually no symptoms of gonorrheal infection appear until several days after it occurs, then for two or three days a thin mucous discharge appears from the urethra. After this time the discharge may turn to a creamy yellow pus, and the disease may reach a very painful stage. During the height of the inflammation, treatment should consist of rest in bed when possible. As soon as the tenderness begins to subside, treatment with germicidal solutions may be employed. Many agents arc used, and the number and frequency of...
