

Grammar Gremlins: A Little Blue Book of Review

By Jan Spurgeon

Outskirts Press, United States, 2009. Paperback. Book Condition: New. 280 x 210 mm. Language: English . Brand New Book ***** Print on Demand *****.GRAMMAR GREMLINS is a book about the little devils that sneak into our writing and speaking, twisting our words so that the message is different from what we intend. If you haven't seen a grammar book in recent years (and have no desire to do so!), perhaps some of these gremlins are spoiling your effectiveness without your realizing it. What to do? Have a look at this little review book - it's filled with errors from newspapers, magazines, television, movies, and other forms of communication. Best of all, each example is corrected and explained in brief (even amusing) detail so that you can clean up your language efficiently and painlessly. Now, doesn't that sound better than studying grammar books, which you already did when you were in school (maybe more years ago than you want to admit!)? If writing and speaking is part of your job, don't you owe it to yourself to spend a few minutes polishing your skills? Maybe you'll discover that some gremlins have crept into your own language....
