Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from Truth and Denotation: A Study in Semantical Theory Every reflective student of language is interested in how predicates and names are related to each other and to the objects for which they stand. The study of such semantical topics has played an important role in philosophy and grammar from the Greek period to the present day. Until recently philosophical discussion of them has been intimately bound up with more general metaphysical or epistemological considerations, and semantical theory has been a branch of a broader philosophy of language. But today interest seems to focus on such theory independent of its place in any metaphysical or epistemological scheme. Semantics is now concerned with problems of a narrower kind than heretofore, but these have come to occupy a central place in contemporary philosophical discussion. Within recent years semantical theory has been tremendously revitalized by discoveries in modern symbolic logic, discoveries so fundamental that semantics has become virtually a branch of logic. Most of the important contributions to modern logic including semantics have been of a highly technical kind, and...
