CHEMISTRY FOR NURSES (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Chemistry for Nurses The teaching of chemistry to nurses is a new thing, but the development of medicine has made it inevitable. Some knowledge of the fundamental conceptions of chemistry is as indispensable as anatomy in the modern treatment of disease. Indeed it puzzles one to understand how, in the past, without chemical instruction, nurses have made any sense at all of much that was taught them in materia medica, physiology, and diet cooking. How rapidly this opinion is gaining adherents is shown by the responses to an inquiry sent by the author to the examining boards of thirty-two states of the Union; in twenty-two states, the answers showed, questions in chemistry formed part of the examination for registered nurses. This book has been written therefore in response to what the author believes to be a real need. There is no simple yet modern textbook on this subject.
