BEING THE FIRST PART OF A COURSE OF MATHEMATICS ...

Filesize: 4.86 MB

Reviews

A top quality publication along with the typeface applied was exciting to read through. It can be rally interesting throgh reading through time. Your life period will be enhance once you full reading this article book.
(Prof. Demond McClure)

THE INSTITUTES OF ALGEBRA; BEING THE FIRST PART OF A COURSE OF MATHEMATICS .

To get **The Institutes of Algebra; Being the First Part of a Course of Mathematics .** eBook, remember to refer to the link listed below and save the ebook or get access to other information which are have conjunction with THE INSTITUTES OF ALGEBRA; BEING THE FIRST PART OF A COURSE OF MATHEMATICS . book.

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1852 Excerpt: .by the second, and subtract the product from the first remainder. Divide the first term of this remainder by twice the first term of the root for the third term of the root. Multiply twice the first term plus twice the second, plus the third by the third, and subtract the product from the second remainder. From which another term of the root may be obtained. When the first term of any one of the remainders is not exactly divisible by twice the first term of the root, the polynomial is not a perfect square. Examples. 1. Extract the square root of 4x+6x +22x, +15x +25. 4x+6x +22K+15x+25 4x When a polynomial is not a perfect square, the expression for its square root may frequently be simplified by the rule for simplifying a radical of the second degree. Thus, take the expression XV z y--x y+- . We can decompose this into two factors Vx--x+lx Vxy, and by extracting the root of the perfect square, we shall have (x-)Vxy. (102.) To extract the nth root of a polynomial. Rule. Arrange the polynomial according to the powers of one of its letters, so that the highest power of that letter shall be the first term; extract the nth root of this first term for the first term of the root. Subtract the nth power of this first term of the root from the given polynomial, and divide the first term of the remainder by the first term...
