Liberty Bell Books, LLC, United States, 2013. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Did you know that only a metallurgical study of the structural steel from the North Tower could have confirmed the Bush administration s explanation for its collapse on 9/11? Did you also know that New York mayor Rudolph Giuliani ordered city officials to sell off that key evidence for recycling before it could be examined? Did you know that Vice President Richard Dick Cheney, as head of FEMA s Office of National Preparedness, had ultimate control of the first World Trade Center investigation? Did you also know that under Cheney s watch, FEMA banned its Dream Team of investigating engineers from the site for more than three months, until after Giuliani had succeeded in having practically all of that vital steel evidence shipped out of the country as scrap? Are you now asking yourself why? In The North Tower: What Really Happened, author David Alden answers that question. Through an exhaustive review of witness statements, physical evidence found at the scene, and the blueprints for the building as seen through the prism of his experience as a civil engineer, he proves to an overwhelming degree of certainty that the collapse of the North Tower was due to an inside job of controlled demolition in which explosives were planted in the building prior to the 9/11 attacks, and that Cheney and Giuliani s criminal act of conspiring to destroy the steel evidence before it could be properly examined was an attempt to hide that fact from the American people.
