Reviews

This book is fantastic. This is certainly for all those who state there had not been a really worth reading. It is extremely difficult to leave it before concluding, once you begin to read the book.

This article aims to clarify what exactly is meant by this widely discussed phenomenon. In this context, it is not only important to explain what is meant by the term itself, but also to describe hypercorrection as a factor in linguistic change. Very fruitful and extensive research on this topic has been carried out by William Labov, who examined 'Hypercorrection by the Lower Middle Class as a Factor in Linguistic Change' (Labov [a]). It is Labov, who shows that there is another factor, which is of high significance when it comes to hypercorrection and which consequently needs to be further clarified in this context: social status. 24 pp. Englisch.
